

US 441

CORRIDOR FACTS

- ◆ The US 441 corridor travels the length of the state beginning at the North Carolina State Line and extending to the Florida State Line.
- ◆ The US 441 corridor is a major north/south transportation artery in the east/central part of Georgia.
- ◆ Completed projects will provide **4-lanes** of roadway, usually divided with a grass median.
- ◆ The US 441 corridor is approximately **371 miles** in length and is the longest of the GRIP corridors.
- ◆ There are approximately **223 miles (60%)** open to traffic.
- ◆ The current estimated cost to complete the four-lane construction of the US 441 corridor is **\$896,843,434**.

PREPARING A HIGHWAY PROJECT FOR CONSTRUCTION

Highway construction demands adherence to an exact project development process, as specified in federal and state laws. This process incorporates a number of key stages that are vital to the development of a highway construction project:

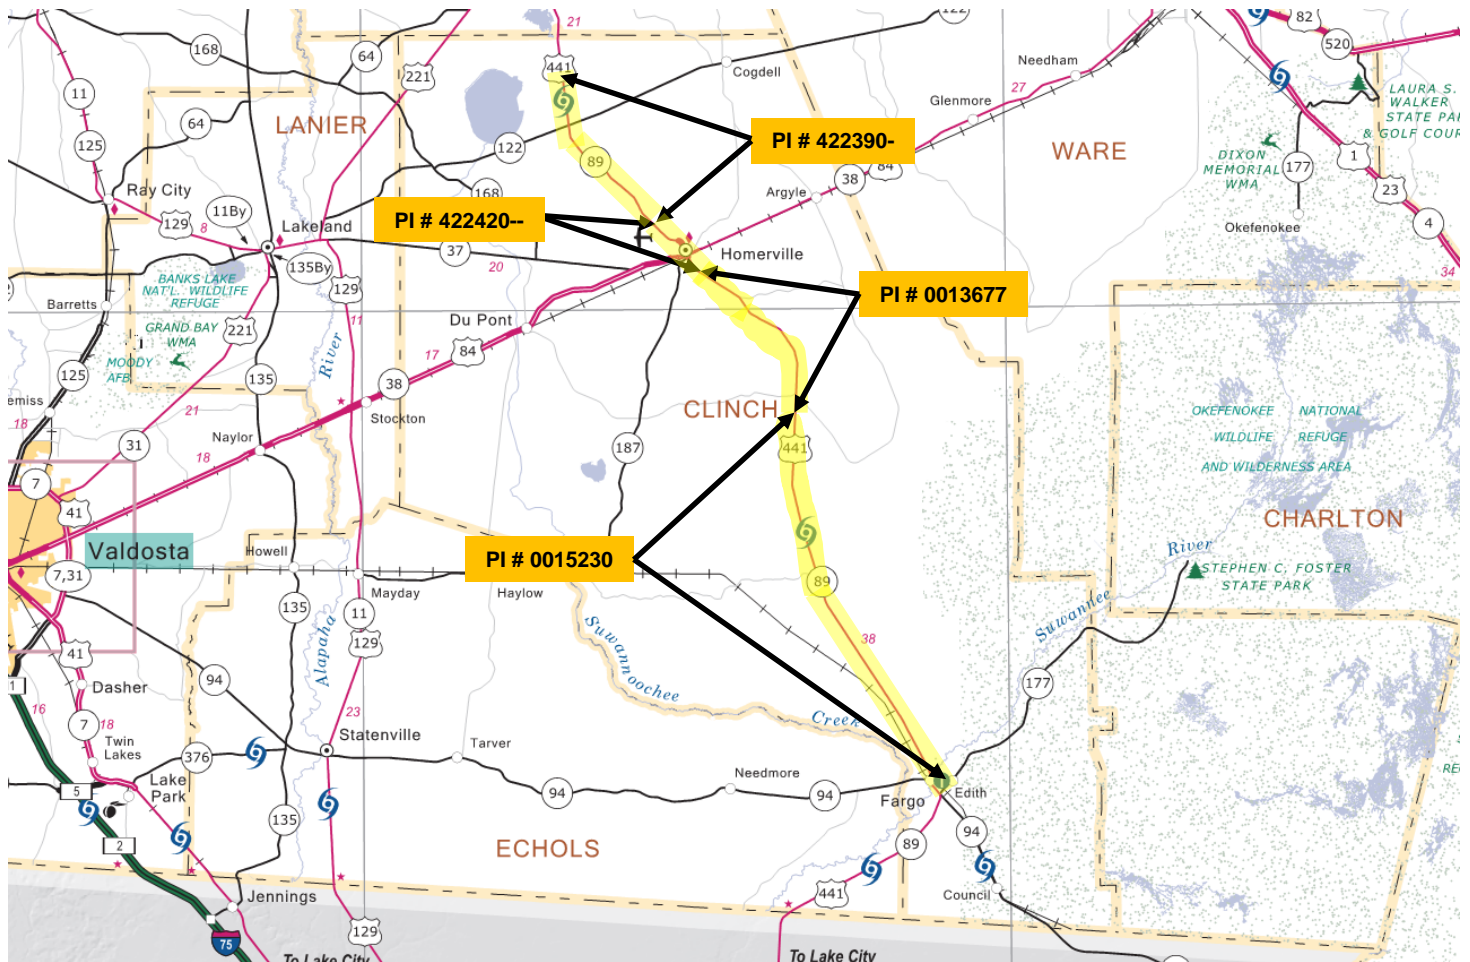

- ◆ Concept Development: Data analysis, conceptual studies and alternatives analysis
 - ◆ Environmental Approval: Surveys for environmental resources, public meetings and environmental document approval
 - ◆ Preliminary Design Plans: Design and preparation of preliminary roadway plans and utility coordination
 - ◆ Right of Way Acquisition: Property title research, right of way plans, property appraisal, purchase of right of way
 - ◆ Final Design Plans: Design and preparation of final construction plans and contract documents
 - ◆ Let to Contract: Advertise for bids, award to construction contract and begin construction
-
